**GR-90 Enlarging Timer**

**M-72 Master Timer**

**P-72 Professional Timer**

## GR-90

**Push button to start; automatic reset.**

The GR-90 incorporates an accurate synchronous motor drive coupled with a simplified automatic reset timing mechanism. A toggle switch controls power to the load receptacle, permitting either timed or constant output. Features include luminous dial, chemical resistant plastic case, wall or table mounting and polarized three-wire line cord and receptacle. 750-watt load capacity. UL listed, CSA approved.

## M-72

**Push button to start; automatic reset.**

With interval and remaining time indicators. Easy to read luminous dial. Enlarger goes on and safelight goes out when push button is operated. Line cord, enlarger and safelight outlets are polarized with a two wire and ground connection. Heavy-duty synchronous motor. 750-watt load capacity. UL listed, CSA approved.

## P-72

**Push button or remote start; automatic reset.**

For exact, fully automatic timing of all darkroom work. Interval and remaining time indicators. Enlarger goes on and safelight goes out when push button is operated. Luminous dial. Line cord, enlarger and safelight outlets are polarized with a two wire and ground connection. Small receptacle accepts Model FS-65 footswitch (not included) for remote operation. Heavy-duty synchronous motor. 1000-watt load capacity. UL listed, CSA approved.

## STANDARD MODELS

Model Number	Volts	Hertz	Maximum Time	Dial Calibration
GR-90	120	60	60 Sec.	1 Sec.
